PINKI

Through My *DIARY*

Not to mention what where and how but surely would like to share what it means to follow ur heart skipping ur brains behind , an engineers mind with the soul of an artist believes this ... so this is for us.

This is for us who sing, write, dance, act, study, run and love and this is for doing it even if no one will ever know because the beauty is in the act of doing it. Not what it can lead to.

This is for the times I lose myself while writing, singing, playing and no one is around and they will never know but I will forever remember and that shines brighter than any praise or fame or glory I will ever have, and this is for you who write or play or read or sing by yourself with the light off and door closed when the world is asleep and the stars are aligned and maybe no one will ever hear it or read your words or know your thoughts but it doesn't make it less glorious. It makes it ethereal. Mysterious

For it belongs to you and whatever God or spirit you believe in
and only you can decide how much it meant
and means
and will forever mean
and other people will experience it too
through you.

Through your spirit. Through the way you talk.
Through the way you walk and love and laugh and care
and I never meant to write this long
but what I want to say is:

Don't try to present your art by making other people read
or hear or see or touch it; make them feel it.

Wear your art like your heart on your sleeve and keep it alive
by making people feel a little better.

Feel a little lighter. Create art in order for yourself to become yourself
and let your very existence be your song, your poem, your story.

Let your very identity be your book.

Let the way people say your name sound like the sweetest melody.

So I believed in creating my own identity and letting my voice become the
sound of your brand /product/or precisely your special day .

Love
Pinki
